Sir:

REISSUE DECLARATION UNDER 37 C.F.R. § 1.175

We, David H. GORSKI, and Kenneth WALSH, both citizens of the United States with residences and post office addresses as listed below, do hereby state and declare as follows:

1. We believe we are the original joint inventors of the subject matter which is described and claimed in United States Patent No. 5,856,121, granted on January 5, 1999, and for which a reissue patent is sought on the invention entitled, "GROWTH ARREST HOMEBOX GENE."

2. We hereby state that we have reviewed and understand the contents of the above-identified specification, including the original patent claims, and the claims in the Preliminary Amendment filed herewith.

3. We acknowledge the duty to disclose information that is material to the examination of this reissue application in accordance with Title 37, Code of Federal Regulations, Section 1.56(a).

4. We believe that U.S. Patent No. 5,856,121 is at least partially inoperative or invalid by reason of our claiming more or less than we had a right to claim.

5. An error which is a statutory basis for reissue is that we failed to claim processes for expressing a Gax protein in a host cell. In addition, we failed to include a claim directed to a DNA molecule having nucleotides 749-931 of SEQ ID NO: 1.

6. The above-described error and all other errors corrected in this reissue application arose without any deceptive intent.

7. We hereby declare that all statements made herein of our own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
